WHAT ARE YOU WAITING FOR?
Teacher Fellowship Opportunities
At the Bill & Melinda Gates Foundation, we believe that nobody knows teaching like teachers. Teaching can be isolating, and we have been trying to figure out how to connect teachers in more powerful ways to have conversations about their profession and practice. Teacher fellowships are one way for teachers to connect, reflect, and improve their practice.

So we set out to learn more about what opportunities exist for teachers and how they are organized. Who sponsors teacher fellowships? How are teachers connected beyond their fellowship programs? How might we connect teacher leaders across fellowship programs?

We didn’t intend to produce a booklet on teacher fellowships, but we amassed enough information about individual opportunities for teachers that we thought it worth sharing. This is a starter list that we hope will help connect you to an opportunity that might improve your practice or encourage you to become a leader in your own learning.

We started with a working definition of what a fellowship is:

- A competitive opportunity for experiential learning, training, and professional development over a period of time
- An opportunity for translating new skills and experiences into enhanced classroom teaching or enhanced educator roles
- A network of current educators
- Free or low-cost; often includes stipend

We found that five different types of organizations tend to offer or sponsor fellowships:

- Foundations and trusts (e.g. Rural School and Community Trust, MJ Murdock Charitable Trust)
- Universities and research institutions (e.g. Stanford University, Teachers College)
- Government agencies and programs (e.g. National Oceanic and Atmospheric Administration, The Fulbright Program)
- Non-governmental organizations and nonprofits (e.g. Teach Plus, StudentsFirst)
- Private corporations (e.g. Toyota, Hilton)

How This Book Is Organized

The fellowships are organized in alphabetical order, and there is an index at the end of this booklet to help you find fellowships by grade, by subject, by location, and by other helpful categories. The fellowship opportunities on the pages that follow roughly fall into five categories, color coded to help you find their listings:

- Pre-service and Recruitment *
- Early Career Support
- Policy and Advocacy
- Research
- Teacher Leadership and Retention

* Pre-service and Recruitment fellowships are listed in the back of the book, under Other Fellowships, along with listings from the other four categories for which we didn’t have a full profile to provide.

We see this as a living document and plan to update it as you send us information about other fellowships that you have participated in or that you know exist. You can send us descriptions of those fellowships at teacherfellowships@gatesfoundation.org. Unfortunately, we cannot reply to your email, but please see the inside back cover of this booklet for the type of information you can help us find out about.

Our larger goal is to figure out a way to network the teacher leaders that emerge through these fellowships—to help connect you to other teachers in a way that leverages the expertise you have gained from your individual fellowships and allows you to make an even bigger contribution to the improvement of teaching and learning. We look forward to doing this with you.

### American Association of Immunologists

**Research Teacher Fellowship**

**TYPE**
Research STEM

**GEOGRAPHIC RANGE**
National

**SINCE**
Established 1990

**TARGET TEACHERS**
High school science educators

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH COHORT**
About 10

**FELLOWSHIPS GRANTED TO DATE**
Unclear

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows engage in introductory courses in immunology, conduct laboratory research in immunology over 4–6 weeks in the summer and develop lab exercises to share with other teachers and to use in the classroom; fellows receive support to present their experiences at a professional meeting.

**PURPOSE**
To promote excellence in science education at the secondary school level. “The goal of the program is to give science teachers the opportunity to participate in an actual research experience in immunology. This experience is intended to acquaint the teacher with modern research tools and techniques, and to allow them to bring the excitement of research to their classrooms. Another goal of the program is to establish long-term associations between science teachers and the research community.”

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni can remain involved by being selected to mentor current teacher fellows

[th-aai.org/education/Summer_Teachers/index.html](http://th-aai.org/education/Summer_Teachers/index.html)

### American Physiological Society

**Research Teacher Fellowship**

**TYPE**
Research STEM

**GEOGRAPHIC RANGE**
National

**SINCE**
Established 1990

**TARGET TEACHERS**
High school science educators

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH COHORT**
About 10

**FELLOWSHIPS GRANTED TO DATE**
Over 400

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows engage in introductory courses in immunology, conduct laboratory research in immunology over 4–6 weeks in the summer and develop lab exercises to share with other teachers and to use in the classroom; fellows receive support to present their experiences at a professional meeting.

**PURPOSE**
“Provide methods and materials promote the integration of inquiry, equity, and technology into the...classroom and into professional development programs; build ongoing working relationships between research scientists and teachers through laboratory research, interactive workshops and online communications; promote the adoption of standards for K–12 content and pedagogy — especially inquiry, equity, and technology use through ongoing in-service activities developed collaboratively by teachers and researchers; and increase teacher’s skills in developing, assessing, and utilizing web-based curricular materials and resources, especially in integrating online resources into inquiry-based teaching.”

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni can remain involved by being selected to mentor current teacher fellows

### America Achieves

**Policy and Advocacy**

**GEOGRAPHIC RANGE**
National

**SINCE**
Established 2015

**TARGET TEACHERS**
Current K–12 educator with at least 3 years teaching experience

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH COHORT**
About 8

**FELLOWSHIPS GRANTED TO DATE**
Unclear

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows remain in their schools during the fellowship. They attend semiannual convenings, participate in a locally or nationally-focused Impact Network, complete professional development webinars and trainings, complete an Impact Project, and engage in high-impact advising, writing, and public speaking opportunities.

**PURPOSE**
To enable the nation’s best educators to impact education policy, practice, and public debates through skill-building, targeted support, and networks of influence.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni remain connected virtually

### California Charter Schools Association Teacher Advocacy Fellowship

**Type:** Policy and Advocacy  
**Geographic Reach:** California  
**Since:** Established 2014  
**Target Teachers:** K-12 charter school teachers in CA  
**Granting Cycle:** Yearly  
**Teachers in Each Cohort:** Unclear  
**Fellowships Granted to Date:** Unclear  

**Purpose:** “…designed to empower charter school teachers to step forward as leaders in their community and advocates for their students.”  

**What Work Do Fellows Engage In?**  
Fellows work to learn how to represent their schools and charter teachers across the state.  

**How are the Fellows Networked?**  
Face to face during training  

**Do Former Fellows Stay Connected?**  
Unclear, program is too new  

[calcharters.org/blog/2013/12/ccsa-launches-inaugural-teacher-advocacy-fellowship.html](calcharters.org/blog/2013/12/ccsa-launches-inaugural-teacher-advocacy-fellowship.html)

### College Board AP Advocacy Fellowship Program

**Type:** Policy and Advocacy  
**Geographic Reach:** CA, FL, GA, NY  
**Since:** Established 2014  
**Target Teachers:** Current or retired AP teachers  
**Granting Cycle:** Yearly  
**Teachers in Each Cohort:** 119 across the four states  
**Fellowships Granted to Date:** Unclear  

**Purpose:** To train teachers to become AP advocates, using their voices to help shape policies that will promote and support the AP program.  

**What Work Do Fellows Engage In?**  
Fellows attend training; initiate, moderate, and analyze online and in-person teacher discussions about AP issues; use this information to develop policy recommendations; meet with leading policymakers to help them understand teacher views and solutions; collaborate with other Fellows to develop strategies; serve as local spokespeople for teachers’ ideas and perspectives.  

**How are the Fellows Networked?**  
Face to face during the fellowship, virtually afterward  

**Do Former Fellows Stay Connected?**  
Unclear, program is too new

### C-Span Teacher Fellowship Program

**Type:** Research: Arts and Humanities  
**Geographic Reach:** National  
**Since:** Established 2007  
**Target Teachers:** Secondary social studies and media technology teachers  
**Granting Cycle:** Yearly  
**Teachers in Each Cohort:** 3  
**Fellowships Granted to Date:** At least 20  

**Purpose:** “…to help teachers learn more about C-SPAN and how to effectively integrate C-SPAN’s online resources into classrooms.”  

**What Work Do Fellows Engage In?**  
Fellows work to learn how to effectively integrate C-SPAN’s online resources into classrooms.  

**How are the Fellows Networked?**  
Face to face during a four-week summer work period  

**Do Former Fellows Stay Connected?**  
Alumni share lesson plans and connect online  

[c-spanclassroom.org/Teacher-Opportunities.aspx](c-spanclassroom.org/Teacher-Opportunities.aspx)

### Choices Leadership Institute

**Type:** Teacher Leadership and Retention: Arts and Humanities  
**Geographic Reach:** National  
**Since:** Unclear  
**Target Teachers:** Secondary social studies educators  
**Granting Cycle:** Yearly  
**Teachers in Each Cohort:** Approximately 24  
**Fellowships Granted to Date:** Approximately 144  

**Purpose:** “The Choices Teaching Fellows Program promotes excellence in social studies by supporting a corps of master teachers who conduct teacher-centered professional development and outreach activities nationwide… The Choices Program develops curricula on current and historical international issues and offers workshops, institutes, and in-service programs for high school teachers.”  

**What Work Do Fellows Engage In?**  
For one week, teachers learn from scholars, engage in best practices workshops, and learn from their peers in an intensive, rewarding environment… Upon completion of the Institute, these educators—now called Choices Teaching Fellows—return to their respective communities and conduct outreach activities. Choices encourages its Teaching Fellows to tailor their activities to their own interests and strengths, and provides resources to help them conduct outreach.”  

**How are the Fellows Networked?**  
Face to face during the fellowship, virtually afterward  

**Do Former Fellows Stay Connected?**  
Alumni assist colleagues in implementing Choices materials

Computing Research Experiences for STEM Teachers (CREST) at UC Davis

**TYPE**
Research STEM

**GEOGRAPHIC REACH**
Washington, DC

**SINCE**
Established 2009

**TARGET TEACHERS**
K-12 educators

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
Reduce. 12 per selection.

**FELLOWSHIPS GRANTED TO DATE**
Almost 50

**PURPOSE**
This Computing Research Experiences for STEM Teachers (CREST) project will create an enduring partnership between secondary school science, technology, engineering and mathematics (STEM) teachers and UC Davis faculty mentors and C-STEM Center to promote teachers’ professional development and create a teaching “infrastructure” that stimulates and inspires them to effectively guide their students towards computing and STEM-related careers and post-secondary study.

**WHAT WORK DO FELLOWS ENGAGE IN?**
Each Fellow must integrate C-STEM Curriculum with computing and robotics into his/her regular classroom activities throughout the school year in any grade from 6 to 12. fellows are required to attend regular monthly one-and-a-half-hour meetings, perform project evaluation and reporting, collect student data, attend math and robotics competitions, form a Computing and Robotics club at their school, attend conferences as assigned, attend LC Davis Summer Institute as assigned, and commit to six weeks full-time research and training in the summer of the fellowship year.

**HOW ARE THE FELLOWS NETWORKED?**
Face-to-face through weekly meetings, training sessions, mentoring, and work with education leaders.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni remain connected with central office staff.

---

Fulbright Distinguished Awards in Teaching Program for U.S. Teachers

**TYPE**
Research International

**GEOGRAPHIC REACH**
National

**SINCE**
Established 1964

**TARGET TEACHERS**
Current K-12 educators with a master’s degree and at least 5 years teaching experience

**GRANTING CYCLE**
Yearly, fellows engage in 3 to 6 month-long programs abroad

**TEACHERS IN EACH CONSORT**
Unclear

**FELLOWSHIPS GRANTED TO DATE**
Unclear

**PURPOSE**
Gives highly accomplished teachers the opportunity to study and observe international best practices in education, share professional expertise with educators and students in the host country, develop leadership skills and understanding of educational policy, and enhance their ability to work in diverse and multicultural environments.

**WHAT WORK DO FELLOWS ENGAGE IN?**
Study in an overseas research center or university (academic support will be provided by a host institution advisor who will assist the U.S. teacher and help contribute to the design and activities of the inquiry project), participate in a virtual community with other participants to collaborate and share best practices about education in the participating countries, work within local schools in the host country; complete an inquiry project which should enhance teachers’ learning and have practical applications to their teaching.

**HOW ARE THE FELLOWS NETWORKED?**
Face to face during program preparation, strong post fellowship virtual networking.

**DO FORMER FELLOWS STAY CONNECTED?**
Fellows are encouraged to participate in the Department of State’s International Exchange Alumni website and local chapters of the Fulbright Association.

---

DC Public Schools Teachers Central to Leadership Fellowship Program

**TYPE**
Policy and Advocacy

**GEOGRAPHIC REACH**
Washington, DC

**SINCE**
Established 2009

**TARGET TEACHERS**
DC public school educators and instructional coaches.

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
Reduce. 5-8

**FELLOWSHIPS GRANTED TO DATE**
Almost 50

**PURPOSE**
Opportunity for DCPS educators to help shape policy at the district level.

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows placed in the DCPS central office for five weeks provide input on curriculum, recruitment and selection of teachers, professional development, and communications. They meet weekly with DCPS leaders.

**HOW ARE THE FELLOWS NETWORKED?**
Face to face through weekly meetings, training sessions, mentoring, and work with education leaders.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni appear to network online, through blog posts.

Fulbright-Hays Seminars Abroad—Bilateral Projects

**TYPE**
Research International

**GEOGRAPHIC REACH**
National

**SINCE**
Established 2003

**TARGET TEACHERS**
U.S. educators, particularly those in social sciences, humanities, or foreign language, with at least 3 years experience

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
Typically 14-17 participants in each of 7-10 seminars; budget institutions only allow one seminar per 4 years

**FELLOWSHIPS GRANTED TO DATE**
Unclear

**PURPOSE**
Program provides short-term study and travel seminars abroad for U.S. educators in the social sciences and humanities for the purpose of improving their understanding and knowledge of the people and culture of other countries.

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows participate in a 4-6 week summer seminar helping them improve their knowledge of the people and cultures outside Western Europe. “Fellows complete and submit a curriculum project to the Department of Education 90 days after the seminar end date. Fellows are required to use their curriculum projects in their classrooms, share with colleagues, and conduct outreach activities in their schools, institutions, and communities, as well as professional and/or academic organizations upon return to the U.S.”

**HOW ARE THE FELLOWS NETWORKED?**
Face to face during seminar.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni appear to network online, through blog posts.

**Fellowships for Teachers**

**Type:** Research: International  
**Geographic Reach:** National  
**Established:** 1991

**Target Teachers:** Current K–12 teachers with at least 3 years experience  
**Grant Cycle:** Yearly  
**Teachers in Each Cohort:** Up to 100  
**Fellowships Granted to Date:** 6300

**How are the Fellows Networked?** Primarily networked virtually; some fellows engage in the fellowship individually or in pairs.

**Do Former Fellows Stay Connected?** Fund for Teachers maintains an alumni blog and tracks fellows across the country; alumni host information sessions and webinars for prospective applicants.

**Purpose:** “Fund for Teachers enriches the personal and professional growth of teachers by recognizing and supporting them as they identify and pursue opportunities around the globe that will have the greatest impact on their practice, the academic lives of their students and on their school communities.”

**What Work Do Fellows Engage In?**
- Teachers spend 4 to 7 weeks in summer experiencing firsthand how industrial scientists and researchers approach problems, design experiments, interpret data, communicate findings, and develop and implement workplace solutions.  
- Teachers attend summer and school year meetings, complete an Action Plan and an Implementation Plan, participate in program evaluation, and invite GIFT staff to their classroom to verify implementation of the Action Plan.

**Do Former Fellows Stay Connected?** Fellows engage face to face during various GIFT-related gatherings and in virtual meetups throughout the year. Fund for Teachers maintains an alumni blog and tracks fellows across the country; alumni host information sessions and webinars for prospective applicants.

**Georgia Tech Intern Fellowships for Teachers**

**Type:** Research: STEM  
**Geographic Reach:** Georgia  
**Established:** 1991

**Target Teachers:** Current secondary STEM teachers  
**Grant Cycle:** Yearly  
**Teachers in Each Cohort:** Up to 300  
**Fellowships Granted to Date:** 6000

**How are the Fellows Networked?** Fellows network face to face during various GIFT-related gatherings such as meetings, complete an Action Plan and an Implementation Plan, participate in program evaluation, and invite GIFT staff to their classroom to verify implementation of the Action Plan.

**Do Former Fellows Stay Connected?** Online alumni community

**Purpose:** “GIFT offers teachers real world applications of the subjects they teach, allowing them to increase content knowledge and gain practical examples of science, technology, engineering, and mathematics applications for enriched instruction and teaching practices focusing on evidence-based experiences.”

**What Work Do Fellows Engage In?**
- “Teachers spend 4 to 7 weeks in summer experiencing firsthand how industrial scientists and researchers approach problems, design experiments, interpret data, communicate findings, and develop and implement workplace solutions.”
- Teachers attend summer and school year meetings, complete an Action Plan and an Implementation Plan, participate in program evaluation, and invite GIFT staff to their classroom to verify implementation of the Action Plan.

**Do Former Fellows Stay Connected?** Little evidence of alumni community

**Goethe Institut Transatlantic Outreach Program (TOP)**

**Type:** Research: International  
**Geographic Reach:** National  
**Established:** 2002

**Target Teachers:** K–12 social studies educators  
**Grant Cycle:** Yearly  
**Teachers in Each Cohort:** Varies; up to 100  
**Fellowships Granted to Date:** 1067

**How are the Fellows Networked?** Face to face during travel

**Do Former Fellows Stay Connected?** Alumni remain connected through newsletters and online professional development offerings

**Purpose:** “…to promote education about Germany, to encourage intercultural dialogue, and to provide the opportunity for North American social studies educators to experience Germany in person.”

**What Work Do Fellows Engage In?**
- A study tour lasting two weeks with an emphasis on “modern German issues relating especially to the political system, economy, culture, education, and environmental sustainability. Additional themes of note include the legacy of the Holocaust, German unification, and European integration. These study tours are designed to provide a comprehensive perspective of modern Germany.” Fellows are required to write a unit of learning and conduct a TOP workshop.

**Do Former Fellows Stay Connected?** Alumni remain connected through newsletters and online professional development offerings.

**Grosvenor Teaching Fellowship**

**Type:** Research: STEM  
**Geographic Reach:** National  
**Established:** 2007

**Target Teachers:** K–12 educators with demonstrated dedication to geographic education  
**Grant Cycle:** Yearly  
**Teachers in Each Cohort:** Varies by year; 10 to 20 teachers in 2014 cohort divided among several expeditions  
**Fellowships Granted to Date:** 77

**How are the Fellows Networked?** Face to face during travel

**Do Former Fellows Stay Connected?** Online alumni community

**Purpose:** “The primary goal of the Grosvenor Teacher Fellow program is to advance geographic literacy by engaging K–12 educators in field-based experiences that will be reflected in their teaching practice and shared with their professional and community networks.”

**What Work Do Fellows Engage In?**
- “The primary goal of the Grosvenor Teacher Fellow program is to advance geographic literacy by engaging K–12 educators in field-based experiences that will be reflected in their teaching practice and shared with their professional and community networks.”
- “Teachers spend 4 to 7 weeks in summer experiencing firsthand how industrial scientists and researchers approach problems, design experiments, interpret data, communicate findings, and develop and implement workplace solutions.”

**Hilton Teacher Treks Program**

**TYPE**
Research: International

**GEOGRAPHIC REACH**
National

**SINCE**
Established 2013

**TARGET TEACHERS**
K-12 educators with at least three years teaching experience

**GRANTING CYCLE**
Weekly

**TEACHERS IN EACH COHORT**
15

**FELLOWSHIPS GRANTED TO DATE**
15

**WHAT WORK DO FELLOWS ENGAGE IN?**
In the Teach Abroad track, ESL/ELL teachers teach abroad for 2–3 weeks at a Hilton Worldwide hotel; in the Travel track, teachers choose their destination and develop their itineraries.

**PURPOSE**
“...allows U.S. primary and secondary level teachers to go abroad for 2–3 weeks to travel or teach, explore and experience culture firsthand during their summer break.”

**DO FORMER FELLOWS STAY CONNECTED?**
Little evidence of alumni community

**HOW ARE THE FELLOWS NETWORKED?**
Face to face and online

**iie.org/Programs/Hilton-Teacher-Treks-Program**

---

**IISME Summer Fellowship Program**

**TYPE**
Research: STEM

**GEOGRAPHIC REACH**
California

**SINCE**
Established 1985

**TARGET TEACHERS**
K-12 Bay Area, Los Angeles, Orange and San Diego County teachers with at least two years teaching experience and commitment to teaching for at least three more years

**GRANTING CYCLE**
Weekly; fellowships are for full-time work over 7-8 weeks in the summer

**TEACHERS IN EACH COHORT**
Up to 120; varies based on host company support for that year

**FELLOWSHIPS GRANTED TO DATE**
2301

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows are assigned placements with host organizations in the STEM field. Fellows work on projects related to biochemistry, business development, engineering, community relations, IT, physics, marketing, software development, technical writing, and web design, among many others. Fellows then create an Education Transfer Plan to bring the fellowship experience back to their classrooms.

**PURPOSE**
Provide teachers with meaningful exposure to the modern workplace, practical applications of today's curricula and increased understanding of the skills students will need in today's workforce.

**DO FORMER FELLOWS STAY CONNECTED?**
Little evidence of alumni community, but IISME keeps track of alumni with surveys informing program outcomes

**HOW ARE THE FELLOWS NETWORKED?**
Face to face and online

Kenan Fellows Program for Curriculum and Leadership Development

**TYPE**
Teacher Leadership and Retention: STEM

**GEOGRAPHIC REACH**
North Carolina

**SINCE**
Established 2000

**TARGET TEACHERS**
K-12 educators with a commitment to education in North Carolina

**GRANTING CYCLE**
Weekly

**TEACHERS IN EACH COHORT**
Between 40–50

**FELLOWSHIPS GRANTED TO DATE**
Over 300

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows commit to one year where they participate in a summer internship in a university or industry setting with a mentor, complete 80 hours of professional advancement work, develop and pilot educational materials based on their internships, submit monthly reflections and impact reports, invite mentors to the classroom, present at an education conference, and actively engage in the Kenan Fellows Program Network following the fellowship.

**PURPOSE**
"The mission of the Kenan Fellows Program is to improve K-12 STEM (science, technology, engineering, and math) education by providing relevant, professional learning and leadership development for exceptional teachers through innovative collaborations with research partners in industry, higher education and government."

**DO FORMER FELLOWS STAY CONNECTED?**
Fellows program maintains alumni information, and expects that fellows stay connected post-fellowship.

---

Leaders for Educational Equity Policy & Advocacy Summer Fellowship

**TYPE**
Policy and Advocacy

**GEOGRAPHIC REACH**
20 regions, including Atlanta, Baltimore, Chicago, Connecticut, Colorado, LA, NYC, Phoenix, Rhode Island, San Antonio, San Francisco, and Washington D.C.

**SINCE**
Unclear

**TARGET TEACHERS**
Recent Teach for America alumni

**GRANTING CYCLE**
Weekly

**TEACHERS IN EACH COHORT**
Between 6-9 per region for a total of almost 180

**FELLOWSHIPS GRANTED TO DATE**
Unclear

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows engage in 9-week full time work in a state department of education, elected officials’ offices, government agencies, school districts, and advocacy groups. Responsibilities vary by host organization, but include development of a warning system for dropping out risk and recommendations for teacher and principal career pathways programs. Fellows participate in professional and leadership development opportunities throughout the year, including 2–3 individual coaching calls, regional trainings and networking sessions.

**PURPOSE**
“To enter and advance careers in education policy and advocacy...”

---

Knowles Science Teaching Foundation Fellowship

**TYPE**
Early-Career Support: STEM

**GEOGRAPHIC REACH**
National

**SINCE**
Established 2000

**TARGET TEACHERS**
Teachers with a science or math degree, no more than one year teaching experience, and a commitment to a teaching career

**GRANTING CYCLE**
Weekly

**TEACHERS IN EACH COHORT**
30–35

**FELLOWSHIPS GRANTED TO DATE**
Over 300

**WHAT WORK DO FELLOWS ENGAGE IN?**
KSTF cohort meetings, membership in a professional organization, one-on-one teacher development work with a KSTF Program Officer (includes observations and reviews), and participation in an online community.

**PURPOSE**
Develop early-career STEM teachers.

**DO FORMER FELLOWS STAY CONNECTED?**
Fellows program maintains alumni information, and expects that fellows stay connected post-fellowship.

---

Leading Educators Fellowship

**TYPE**
Teacher Leadership and Retention

**GEOGRAPHIC REACH**
North Carolina

**SINCE**
Established 2011

**TARGET TEACHERS**
K-12 teacher leaders in an open enrollment school with 70% qualifying for free or reduced lunch; 2 years minimum experience

**GRANTING CYCLE**
Weekly

**TEACHERS IN EACH COHORT**
154 Fellows across the five service regions

**FELLOWSHIPS GRANTED TO DATE**
About 475

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows work to achieve mastery in at least 5 of 8 Core Modules through series of rigorous performance tasks. Fellows develop skills through formal PD, 1:1 leadership coaching, peer collaboration and problem solving, and job-embedded action learning. Fellows set goals, analyze their strengths and weaknesses, experiment with new behaviors, adjust their leadership styles to fit their teams, learn to build skillful teachers, use data to achieve student mastery, and learn cultural leadership.

**PURPOSE**
“Leading Educators develops teacher-leaders (e.g., grade chairs, deans, master teachers, curriculum coordinators, assistant principals) in order to significantly raise student achievement and retain talented educators in urban schools.” Focuses on filling the leadership skills gap during traditional teacher preparation.

**DO FORMER FELLOWS STAY CONNECTED?**
LEF maintains heavy contact with alumni and hosts networking events.
**Lowell Milken Center Fellowship**

**TYPE**
Teacher Leadership and Retention

**GEOGRAPHIC RANGE**
National

**SINCE**
Established 2003

**TARGET TEACHERS**
 Experienced mid-career educators

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
Up to 22

**FELLOWSHIPS GRANTED TO DATE**
Almost 50

**WHAT WORK DO FELLOWS ENGAGE IN?**
LMC Fellows gain robust professional development that can transform their classrooms and receive ongoing educational support in project-based learning, project development (Unsont Heroes projects), primary and secondary research and much more. Further, Fellows join an elite network of premier educators from across the world focused on enhancing student learning experiences.

**PURPOSE**
...amended at strengthening teacher ability to cultivate a passion for learning among students through projects that initiate positive change in schools, communities and the world.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni remain connected with their cohorts, usually form strong relationships after 4–5 years. Online "Small-World Network" is internal online community of LMC Teachers. MfA hosts yearly social events and ceremonies.

**Math for America Early-Career Fellowship**

**TYPE**
Early-Career Support

**GEOGRAPHIC RANGE**
National

**SINCE**
Depends on the region, NYC was first in 2004

**TARGET TEACHERS**
Secondary math educators in high-need public or charter schools, some regions include elementary teachers

**GRANTING CYCLE**
Yearly, fellowships last 5 years

**TEACHERS IN EACH CONSORT**
Varies by region, about 50 per region across fellowship types

**FELLOWSHIPS GRANTED TO DATE**
Up to 22

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows receive coaching and mentoring from MfA Master Teachers and coaches, receive funding to attend mathematics conferences, and deepen their math content knowledge and pedagogical skills through monthly professional development meetings. Fellows receive over 300 hours of professional development over four years.

**PURPOSE**
...designed to help beginning teachers grow into effective instructors and school leaders. The goal of this program is to increase the number of teacher leaders who will make a difference in and beyond their classrooms.

**DO FORMER FELLOWS STAY CONNECTED?**
Fellows maintain contact with their cohort and network at Milken

NOAA Teacher at Sea

**TYPE**
Research: STEM

**GEOGRAPHIC REACH**
National

**SINCE**
Established 1990

**TARGET TEACHERS**
Current K-12 educator or administrator

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSENT**
Up to 30, divided among expeditions

**FELLOWSHIPS GRANTED TO DATE**
Almost 700

**WHAT WORK DO FELLOWS ENGAGE IN?**
Fellows complete an online training course, submit weekly logs at sea and upon return, submit lesson plans addressing the science and research that was conducted, submit lesson plans that address ocean careers, submit articles for publication or conduct presentations about the mission at a conference or for colleagues, and submit a post-cruise survey. The expeditions range from 1–4 weeks in length.

**PURPOSE**
...to provide teachers hands-on, real-world research experience working at sea with world-renowned NOAA scientists, thereby giving them unique insight into oceanic and atmospheric research crucial to the nation. By participating in this program, teachers profoundly enrich their classroom curricula, enhance their approaches to teaching science, and engage their local community with knowledge that can only be gained by living and working side-by-side, day and night, with scientists who contribute to the world’s oceanic and atmospheric scientific research.

**DO FORMER FELLOWS STAY CONNECTED?**
Fellows become members of the Teacher at Sea Alumni Association where they receive opportunities for participation in other NOAA research projects, grants, partnerships, invitations to participate in NOAA education events, workshops, and access to classroom materials and resources.

teacheratsea.noaa.gov/about/index.html#whomayapply
**The Rural School and Community Trust Global Teacher Fellowship**

**TYPE**
Research: International

**GEOGRAPHIC REACH**
National

**SINCE**
Established 2011

**TARGET TEACHERS**
Current K-12 educators with at least 4 years teaching experience, working at least 60% of the time in a rural community as defined by the National Center for Education Statistics

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
Up to 10, traveling in singles or pairs

**FELLOWSHIPS GRANTED TO DATE**
97

**PURPOSE**
Support teacher-designed summer experiences based on international travel out of which they develop interdisciplinary, place-based learning curricula aligned with their specific state and local content standards; establish a network of rural teachers committed to place-based learning and the globalization of the rural K–12 learning environment.

**WHAT WORK DO FELLOWS ENGAGE IN?**
Educators apply for the grant by designing their international travel itinerary alone or in pairs. As fellows, they travel in the summer and participate in a place-based learning institute the following fall. They develop an interdisciplinary curriculum to share in their schools. Fellows also engage in program marketing sessions in their school or district, conferences and webinars to share information with the RSCT network, curriculum development and updates, and public relations opportunities (newspaper, radio, TV).

**HOW ARE THE FELLOWS NETWORKED?**
Primarily networked virtually, since they engage in the work largely on their own. Fellows also engage in communication as a networked professional community.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni network blog

**Peabody Fellows at the Yale Peabody Museum**

**TYPE**
Research: STEM

**GEOGRAPHIC REACH**
National

**SINCE**
Established 1997

**TARGET TEACHERS**
Secondary educators with responsibility for teaching business, economics, or the financial market in their curriculum with at least 3 years teaching experience, working at least 60% of the time in a rural community as defined by the National Center for Education Statistics

**GRANTING CYCLE**
Yearly

**TEACHERS IN EACH CONSORT**
40 (some pay, some participate via the fellowship)

**FELLOWSHIPS GRANTED TO DATE**
100

**PURPOSE**
“Teachers begin their experience as a Fellow by taking part in a 3- or 5-day summer institute that includes curriculum writing or refinement, hearing about current research from experts in the field, and learning how to teach with real museum objects and specimens. Fellows agree to teach the curriculum unit in their classroom and administer short assessments before and after. In addition to the free summer institute and curriculum, most Peabody Fellows programs also offer a stipend, CELs, a free class visit to the Museum, a one-year family membership, and other benefits.”

**WHAT WORK DO FELLOWS ENGAGE IN?**

**Stanford Hollyhock Fellowship for High School Teachers**

**TYPE**
Early Career Support

**GEOGRAPHIC REACH**
National

**SINCE**
Established 2014

**TARGET TEACHERS**
A current teaching position in science, math, history or English at a high school where >50% of the students qualify for free or reduced lunch; fellows apply with at least 2 same-school colleagues who also apply and meet eligibility criteria

**GRANTING CYCLE**
Yearly; the fellowship lasts 2 years

**TEACHERS IN EACH CONSORT**
100

**FELLOWSHIPS GRANTED TO DATE**
100; current 2015 application window open

**PURPOSE**
“The Hollyhock Fellowship Program aims to help stop the revolving door of teachers leaving their careers within five years by encouraging, supporting and recognizing highly motivated early-career teachers and providing them with rich learning opportunities with colleagues nationwide.”

**WHAT WORK DO FELLOWS ENGAGE IN?**
“. . .two weeks of residential workshops — for two consecutive summers — that feature courses taught by university scholars and expert practitioners. Fellows also receive online coaching and mentorship for two school years.”

**HOW ARE THE FELLOWS NETWORKED?**
Fellows engage face-to-face during residential workshops with regular online communication as a networked professional community.

**FELLOWSHIPS GRANTED TO DATE**
28

**WHAT WORK DO FELLOWS ENGAGE IN?**
Classroom Fellowship: fellows serve as paid, part-time federal employees, in addition to their chief work as teachers, for one school year, primarily by sharing public information with other teachers and facilitating conversations amongst educators at the district, state and regional level. Classroom Fellows gain knowledge of key Department initiatives and understand how these intersect with state and local efforts; work with Department staff to gather and share information with constituencies in the region; and are asked periodically to share relevant school and classroom experiences with internal and external audiences.

**DO FORMER FELLOWS STAY CONNECTED?**
Alumni appear to network online, through blog posts

**PURPOSE**
"Create a community of teacher leaders who share expertise and collaborate with policymakers and leaders in the federal government on national education issues; involve teachers in developing policies that affect the classroom, expand teachers leadership in policy at the national, state, and local levels."

**www2.ed.gov/programs/teacherfellowship/index.html**
