How many of our public high school graduates enroll in postsecondary education?

Percentage of 2008 graduates who enrolled in the first year after high school:
- 66.7% Fulltime
- 33.3% Parttime

Percentage of 2005 graduates who enrolled in the first year after high school in a 4-year institution:
- 65.4% Enrolled 4 yrs
- 45.4% Enrolled 4-6 yrs
- 4.7% Enrolled 6-9 yrs
- 4.7% Enrolled 9-12 yrs
- 15.4% Enrolled Less yrs

Key Findings:
- Of those high school graduates that enrolled in higher education in the fall immediately after graduation, 79% persisted in the second fall (2007-08 graduates tracked into fall 2009 and fall 2010).
- Of those high school graduates that enrolled in a 4-year institution in the fall immediately after graduation, 57% enrolled in higher education four continuous years (2004-05 graduates tracked into fall 2005, fall 2006, fall 2007, and fall 2008 semesters).

Rates of persistence into second year, by type of institution first attended:

Rates of continuous enrollment over 4 years, by type of 4-year institution first attended:
